

An aerial photograph of a golf course. In the foreground, a large, two-story house with a grey roof and brick accents sits on a green lawn. A winding pond flows through the middle of the image, separating the house from the golf course. The golf course features several green fairways, sand traps, and a line of trees in the background. The top of the image is framed by a green wavy graphic with a grid pattern.

E DURA RECOMMENDED STRAINER

A 1" Y-Strainer with a 40-mesh screen on the suction or inlet side of the pump keeps foreign material out of the system and out of your sprayer.

/ BANJO 1" Y-STRAINER

DP-S10040M

PROTECTION

- / A singular fill point with a closed system connection yields drip-free transfer of a product.
- / Float valves ensure tanks fill completely and will not overflow.
- / The applicator and environment are protected from off-target chemical exposure.

PRODUCTIVITY

- / A high flow Dura-Pump™ and singular fill point provides faster fill times and efficiencies.
- / Quickly connect the Dry Poppet, then flip the pump's switch.
- / The sprayer is filled up to 15GPM, while the applicator can multi-task without concern of environmental or personal herbicide exposure.

DURA-PROfill™

Turf sprayer **Closed-Fill** system

Designed for the **PRO**

BE A PRO...use a
Dura-PROfill™

PROFICIENT

- / The system is designed to easily recirculate product in the supply tank.
- / Recirculation ensures optimal mixture for the best application.

PROFESSIONAL

- / A closed-fill system is the hallmark of good stewardship, compliance and the epitome of professionalism.
- / Responsible business practices and a professional image pay dividends through customer retention and referrals.
