Moisture  
sealed circuitry.

**NOW** with  Bluetooth® wireless connectivity! Control it with the Dura Remote App. Compatible with Android™ or Apple® phones or tablets.

The Dura Auto-Batch™ High-Flow Meter is an automated device for transferring fluids. You just enter the amount you want, turn on the pump, and press Start. The meter opens a valve to send the fluid, then closes it when the amount is reached. System requires Dura's specially tuned relief valve kit to function. Can be ordered as a complete kit that includes the meter, valve and relief valve.

### Auto-Batch™ Features

- Controls carrier flow using a 12-volt DC electric ball valve
- Easily select manual or automatic operation
- Returns to last volume amount dispensed for easy repeatable batching
- Displays message when batch is completed
- Banjo® EVX® 2" or 3" Valves available for tank bypass system

### 2" & 3" High-Flow Dura-Meter™

- Intuitive menu-driven backlit display
- Works with non-conductive materials
- Ability to save up to five manual calibrations
- Option to display batch volume, total volume, and flow rate
- Volume measured can be displayed in Liters or Gallons
- Ability to calibrate allows for industry minimum straight line before/after meter\*
