#### ORDERING INFORMATION

1"	DPAB-HFM1KITV Viton®	DPAB-HFM1KITE EPDM
2"	DPAB-HFM2KITV Viton®	DPAB-HFM2KITE EPDM
3"	DPAB-HFM3KITV Viton®	DPAB-HFM3KITE EPDM

#### KIT CONTAINS

Valves	Custom Pressure Relief & Electric Valve
Meter	Auto-Batch™ High-Flow Meter
Other	All hose clamps, gaskets, reducer couplings & tees

**NOW with  Bluetooth® wireless connectivity!**  
Control it with the Dura Remote App. Compatible with Android™ or Apple® phones or tablets.

# 1"-3" AUTO-BATCH HIGH-FLOW METER SYSTEM

The Dura Auto-Batch High-Flow Meter is an automated device for transferring fluids. You just enter the amount you want, turn on the pump, and press Start. The meter opens a valve to send the fluid, then closes it when the amount is reached. System requires Dura's specially tuned relief valve kit to function. Can be ordered as a complete kit that includes the meter, electric valve and relief valve.

#### Features

- Controls carrier flow using a 12-volt DC electric ball valve
- Easily select manual or automatic operation
- Returns to last volume amount dispensed for easy repeatable batching
- Displays message when batch is completed
- Dura valves available for tank bypass system
- Intuitive menu-driven backlit display
- Works with non-conductive materials
- Ability to save up to five manual calibrations
- Option to display batch volume, total volume, and flow rate
- Volume measured can be displayed in Liters or Gallons
- Ability to switch between multiple meters using App.
- Ability to calibrate allows for industry minimum straight line before/after meter\*
