Complete Turnkey Spray Trailer Mixing System

Dura Products partnered with DEMCO® to offer the FastBatch™ Spray Fill DI System as a premium liquid tender mixing solution.

Optimized for Speed, Accuracy and Safety

The FastBatch™ DI system is designed with simultaneous direct injection to maximize productivity, streamline your workflow, and keep your team and crops safe.

Fast: Speed and Productivity
Direct inject up to 4 chemicals simultaneously to maximize productivity. Fill times are up to 75% faster (as fast as 5 minutes) than traditional systems, leading to reduced downtime between loads, fewer stops for refilling and cleanout, and more acres covered per day.

Simple: Familiar and Reliable
Uses proven, reliable parts and intuitive controls for a hassle-free experience, even for new users.

Safe: Protect Your Crops, Team, and the Environment
Delivers precise & repeatable chemical mixing on every load with the ability to store & save calibration presets. Reduce exposure risks with a system designed for operator safety.

ORDERING INFORMATION	
PRODUCT #	**DESCRIPTION**
DPAB-DEMCODI2V-12	2" FastBatch DI System 12V Viton® 4 pump
DPAB-DEMCODI2E-12	2" FastBatch DI System 12V EPDM 4 pump
DPAB-DEMCODI3V-12	3" FastBatch DI System 12V Viton® 4 pump
DPAB-DEMCODI3E-12	3" FastBatch DI System 12V EPDM 4 pump

Auto-Batch™ High-Flow Metering Kit for Precise Liquid Transfer

- Manual (Bluetooth® only) & automatic operation
- Can be controlled remotely with Bluetooth® Dura remote app
- Enter desired volume, hit start button, and system automatically starts and stops flow
- Maintains high accuracy (±0.5%) for consistent transfer
- Eliminates overfilling and manual guesswork
- Remembers previous batch volumes for repeatable loads
- Displays batch totals, flow rate, and system data

Integrated trailer power system with in-field charging

- Single battery that powers FastBatch™ DI, meters, valves, and 12V trailer accessories
- Charges while transporting between fields
- Eliminates need for external or separate charging setups
- Provides consistent, reliable power across the system

Trailer-optimized plumbing and routing

- Ribbed, suction-rated hose from the FastBatch™ system to the chemical totes prevents kinking/collapse and maintains consistent flow and shape under high suction conditions.
